Black Cat Hosiery

AMERICA'S HANDSOMEST HOSIERY

Has stood the test for twenty-eight years, yet it has never "rested" on the reputation of a past year—each year it has set anew the high mark of maximum hose-merit—each year it has earned a better name for excellence—that's why it has gained the confidence of the American Family—that's why it is demanded, purchased and worn by buyers of judgment and sensible economy. See the Black Cat at our hosiery counter—convince yourself as to its merits! Feel its luxurious softness—see its shapeliness—its knit "glove-fitting" for style—of softest yarns for comfort—colored by the highest salaried dyer in America for beauty—made with extended reinforcement in heel and toe for wear.

LOOK FOR THE "SIGN OF THE BLACK CAT"

and there you'll be sure to get satisfaction—you'll get hosiery that is the product of the highest skill—of the latest improved machinery—of twenty-seven years successful manufacturing experience. You'll get the most durable and desirable hose made—BLACK CAT.

STEVENS-WILSON CO

A New Enterprise.

A new enterprise is coming to Pontotoc county. It is known as the Pontotoc County Brick, Tiling and Stone plant, brick and tiling to be made by a new process, the patent of J. R. Vincent of Oklahoma City. It will cover about 5 acres of ground and employ a number of men.

Ada has already made an offer of ground for building purposes, free trackage and free water.

The company is composed of men of this section and a number of them are anxious to locate the plant near a large bed of glass sand. Roff in their

opinion affords an ideal location and they desire to meet the commercial club of Roff on the evening of the 21st of April, Mr. Vincent promising to be present for the meeting and explain the details. This plant will be installed after August 15th. It is a good thing for the community that succeeds in landing it and it is to be hoped that it can be induced to locate at Roff.

B. F. McKelvey of the Lightning Ridge community has been elected president of the company, and will do everything in his power to locate the plant in this end of the county.—Roff Eagle.

25c A PINT FOR DEAD FLIES

This is a very strange offer, isn't it? But we mean just what we say.

Until further notice we will give 25c a pint for all dead flies brought to our store—The Rexall Store.

This same offer is being made by other Rexall Stores in other cities and towns all over the United States.

As there are 6,000 of these stores, you can easily realize that it means practical extermination of the house fly—providing we have your cooperation—providing you—

JOIN NEARLY 6000 REXALL DRUGGISTS IN SWATTING FLIES.

Flies spread disease. They carry the germs from the sick to the well. You are never safe from danger while there is a fly around. How do you know where the fly that lights on your food or on your baby's face has been. It is not only a matter of CLEANLINESS, it is a matter of safety to

KILL EVERY FLY YOU POSSIBLY CAN.

With nearly 6,000 Rexall Stores all over this broad land, directing the campaign and furnishing the ammunition, the result will not only be a vast decrease in the number of flies—with a corresponding small number next year—but it will mean a tremendous benefit to the health and comfort of nearly 100,000,000 people.

10,000,000 FREE REXALL WIRE FLY SWATTERS

To every adult person calling for one, we will give a Rexall wire fly swatter with which to kill flies. We want you to join us in this great work.

Our offer of the FREE FLY SWATTERS and our agreement to pay 25c a pint for all dead flies brought to us is made in good faith

JOIN THE GREAT NATIONAL MOVEMENT IN SWATTING FLIES.

Every fly killed in April, means a thousand killed in June.

HOUSE STIRRED BY REPORT

COMMITTEE FINDS REVOLTING STATE OF AFFAIRS AT GRANITE REFORMATORY.

Oklahoma City, Ok., April 16.—Conditions at the state reformatory at Granite are said to be such that there is talk of impeachment proceedings against members of the Board of Prison Control, composed of Gov. Cruce, Attorney General West and G. T. Bryan, president State Board of Agriculture. The matter was laid before the House of Representatives this afternoon in a report made by the general investigating committee, which charges that the reformatory's condition made it resemble the "black hole of Calcutta." The house members applauded lustily every reference by speakers to the necessity of impeachments, and no official, near or remotely, connected with management of the institution, including the State Commissioner of Charities and Corrections, was shielded from the severest criticism that has been listened to since the legislature began.

Details of what the investigating committee reported it found regarding the institution are not printable. The report is specific, and will appear as a part of the official house journal. It charges that both the governor and the attorney general, two of the board controlling the prison, knew of evils through reports made to them. An official report of Dr. Mahr, state health commissioner made months ago, told some of the details also. When these facts were stated to the house in the debate so intense grew the feeling that some members favored hurrying the report to the impeachment committee with the implied instructions to return charges. Mr. Wright, in offering the motion to refer, read from the constitution that all elective state officers were liable to impeachment for "willful neglect of duty."

The idea of reference was not followed for the reason members of the investigating committee said it might hamper them in obtaining facts bearing on other matters for investigation. The report was adopted in the house by a vote of 87 to 2, and recommends among other things, the immediate removal of Clyde Reed, warden of the prison, and John Hackett, the deputy warden.

The Board of Control is condemned. But one member of the board, that being Mr. Bryan, it is declared, has

SMITH'S

HOUSE PASSES

ADA APPROPRIATION

Oklahoma City, April 17.—The Wright mortgage tax exemption bill was finally passed by the house of representatives Wednesday by a vote of 54 to 30. The bill failed by six votes on first roll call nearly two weeks ago, and has been lying dormant on a motion to reconsider until today.

There was no debate on the bill. It would have passed on first roll call except for the fact that nearly a third of the house membership was absent at the time.

The boardward resolution to submit the question of abolishing certain of the state schools was likewise reconsidered, having failed to pass on first roll call, and was set as a special order for 2 o'clock Thursday for final roll call.

The "abolitionists" of the house are demanding that this resolution go through before the appropriations for the various institutions, and expressed their intention to fight the appropriations unless the question of abolition is submitted to the people has gained the requisite votes.

The senate joint resolution submitting a proposed constitutional amendment to apportion the school taxes from public service corporations equitably among the school districts regardless of the amount of such taxable property each might contain was passed finally by the house.

Representative H. H. Smith got the house to reconsider the vote by which the bill to abolish the state board of affairs and substituting a state pur-

chasing agent instead had failed of passage several days ago, but did not attempt to get another roll call on the measure now.

The house passed the amended appropriation bills for Claremore and Ada schools, the first by a vote of 54 and the latter by 65.

Gambling Joint Robbed at Henryetta. Henryetta, Okla., April 16.—There were two severe shocks here Tuesday morning. The first came about 3 o'clock when two men entered a prominent Main street gambling house

and at the point of guns forced gamblers and players and lookout men up against the wall, after which they took \$800 in money, several guns and other property. The second shock came to the ministers and the chief of police when they ascertained that a gambling house was running in town. While the proprietors of the gambling house admitted this afternoon that they had been held up and robbed they said that they did not intend to prosecute and would lodge no formal complaint with the police.

Bankers' Side of "Farm Credits."

Alexandria, La., April 17.—Just what the farmer is to expect from the banker, formed the basis of a spirited discussion at the opening here today of the Louisiana Bankers' Association annual convention. In an address on "The Bankers' Broad Shoulders" Henry V. Broussard declared that because banks will not advance money on a second mortgage on a second-rate one-horse, run-down farm at the same interest rate as is charged for the same service to the man who hands in gilt edged security that can be sold in one minute by telephone without moving from a desk, it seems that the banker is singled out as a loan shark, a thousand times worse than Shylock. In conclusion Mr. Broussard declared that the farmers had always received a square deal from the bankers and that the present agitation is based more on considerations of sentiment than business.

NORMAL NOTES

By MOIKE CASSIDY

Word has just been received from the Southwestern Passenger Association that the railroad will allow a rate of one and one-third fare from all points in Oklahoma to Ada at the time of the Track and Field meet. Tickets will be sold on May 1st, 2nd and 3rd with May 4th as the final limit for return.

The list of entries is still graying. Maude High school, in addition to sending a track team has entered a tennis team and they will be matched with Atoka. This feature will be pulled off on Friday afternoon May 2nd immediately after the baseball game with Edmond.

The beautiful cup that is to be awarded the team winning the meet has arrived and may be seen in the window of C. J. Warren's Jewelry store.

Prof. Sears announced in Chapel this morning that during the field and track meet there will also be a tennis tournament among the different schools that will be here.

Miss Hindman, instructor of music returned this morning where she was called by the illness of her sister. She states, she has improved nicely.

A. G. Reagan who has been teaching near Eufaula enrolled this morning in the Senior class. He will no doubt help materially in the athletics, he having played with the Northeast normal in foot ball as well as baseball.

MAXWELL.

The sun rose bright this morning and with a gentle breeze from the north-west bids fair to give us a pleasant Sabbath day.

Our village, so long clear of sickness, is now sorely oppressed. Mrs. Vick is quite sick so is Mrs. Bice. Sweat and our venerable veteran Mr. Sylvester Summers, is very low, suffering from a complication of diseases incident to old age and wounds received in defense of Constitutional Liberty in America. We do hope he may recover and enjoy a few more years of the blessings of the best Government ever patterned by man. He has the consolation of knowing that the afflictions from which he is suffering were contracted in a holy cause. I say long life to you men who met us on the field of honor. I concede to you what I wish for myself.

We are still without a doctor in Maxwell. One is certainly needed as there were two calls for a doctor from Stratford and one from Konawa yesterday.

Mr. D. C. Hybarger whose farm adjoins Maxwell and who now resides with his wife and family in Konawa, was over to see us yesterday come again, Dave, and help us build up the country of which you are apart.

Ed Cotton begins to look a little better. However he crosses the river more often than he will admit.

We are pleased with the progress of our school and intend to have a high grade in the near future, as we are beginning to think that the benefit derived from the schools are about all we get from taxes paid.

Now that the legislature has given the governor almost plenary power we think we see prohibition prohibit and want one more word added with the same pains and penalties that word is "coffee" which is killing more people in the United States than any other three things. If our neighbors will persist in drinking coffee, shortening his life and spending his last quarter for a sickening luxury, one pound of coffee, when in many instances his wife and children need good fitting shoes, we have the right to protect the women and children. We believe that all true Christians at the proper time should assist in eradicating this evil.

With pleasure I see that Kansas has started the ball in motion for a commission form of state and municipal government, like all great reforms, it moves slowly, but it will come.

What man would have thought a decade ago, that the election of U. S. Senators by the people would occur in 1913? If President Wilson can hold his party in line he may be able to work out some radical reforms. President Lincoln in 1861 held the Democratic north to the support of his administration by appointing every wavering man to an office with a good salary (that he could prevail on to accept), though he had more offices to give at that time than President Wilson has now.

Could you give me the address of Mrs. Mabryck the American lady who was sentenced to death in England about 22 years ago?

(Am unable to give the above address. A year ago she was on the lecture platform.—Editor)

New Wall paper coming in all the while at Holley's. 229-tf

NORMAL READY FOR BIG GAME

Everything is in readiness for the big game tomorrow with the Deaf. All the fans and rooters of the Normal are anxious for the game and are waiting with anxiety to see the two teams clash. In fact, there has never been a time in the history of the normal, when all students seemed to take so much pride in the representatives of the school as they take in the baseball team. It is doing things and the fans are helping do them.

The game Friday will be called at 3:30 and the one Saturday at 2:00 p. m. The game Saturday will have to be called early in order to get the deaf boys off on the afternoon Frisco. The superintendent of the school at Sulphur will not permit the boys to be away from home more than one night at a time.

It has not been decided yet whether Limber Bill will pitch the game Friday or the one Saturday. It all depends upon the pitcher Sulphur puts in the box. Limber Bill is on his toes to give them a plenty when he does twirl.

MAN WANTED AT BONHAM CAPTURED

This morning a man by the name of Bill Turner was arrested and placed in jail to await the coming of an officer from Bonham, Texas, for return there.

According to his story, which was corroborated by long distance phone from the sheriff of Fannin county, Turner was confined in the Bonham jail with a five year sentence for burglary hanging over him. Sunday night he managed to saw his way through the steel ceiling of the jail and escape. He arrived in Ada on a freight train sometime Wednesday night.

Early this morning County Attorney Roland got a tip of the man's presence and his story, which he had unwisely confided to a fellow passenger in the side door Pullman. After communicating with the sheriff of Fannin county he found that the fellow had told the truth about himself and without waiting longer he took Bud Gregg and went to the stopping place of the man. When he saw that the jig was up Turner took his arrest good naturedly and went to jail without protest, admitting that he was the man wanted.

Boston Has Oldest Baseball Employee.

Boston, Mass., April 17.—With the opening today of the home season of the National league, Gene Foster began his thirty-fifth consecutive season as chief usher at the South End grounds. Gene is seventy-six years old and claims to be the oldest employee at any baseball park in the country, both as to age and years of service.

MAY RESUME OIL PROSPECTING AGAIN

With oil operations spreading all over Oklahoma, it is but natural that Ada people should be wondering what will be done in this vicinity, where every one believes a rich strike will be made in case a well is drilled to a sufficient depth.

The News is reliably informed that the Ada Oil & Gas Co. is arranging to pay up the rentals on the leases held by it and when a few other details shall have been arranged will resume operations somewhere in this vicinity, possibly near the Badger well west of the city. From all accounts drilling will soon begin around Allen and Steedman and that portion of the county thoroughly explored.

MEDICAL ATTENTION FOR THE VETERANS

Chattanooga, Tenn., April 17.—Tacked up on the walls of Confederate reunion headquarters in this city, is a large card, dimensions about two by three feet. This card contains information of interest to the reunion hospital service.

For three days of the reunion, May 27, 28 and 29, the physicians of Chattanooga will give their services to the reunion association to look after the health of the veterans and visitors. A couple of physicians each day will be located at convenient points in the city and on the battlefields, so that medical service may be quickly provided if needed. The card indicates the assignments for each day, tells where the doctors will be and gives their names.

So if a veteran or visitor is suddenly stricken with any ailment he will be given immediate attention by the medical corps. City Physician Steel is at the head of the medical corps, and has been active in making preparations. Prominent ex-Confederates from other states who have looked into this branch of the coming reunion service, pronounce it the most perfect they have ever seen.

In case of accident the medical corps will promptly give attention to the injured. Hospital service will be provided free of all charge to veterans, and any others that may need medical attention in an emergency.

May is the healthiest month of the year in Chattanooga, but in immense crowds, like that expected during the reunion, medical attention is generally in demand by somebody. The preparations to provide this attention immediately if needed, are all that could be desired.

Farmers' Co-operative Work.

House Bill No. 578 by Woodard.

Section 1. The county commissioners of the respective counties of the state may, and they are hereby authorized and empowered to appropriate and use under such rules and regulations as they may prescribe, any sum or sums of money not exceeding Five Hundred Dollars per year for the purpose of co-operating with the United States Department of Agriculture in work in their respective counties, conducting Farmers' Demonstration along the same lines as this work is, and may be conducted by the United States Department of Agriculture, upon such terms and conditions as may be agreed upon between the agents of the Department of Agriculture and the County Commissioners. Provided, that before making such appropriation, notice of same, setting a date for a hearing, shall be published for four consecutive weeks in some weekly paper of general circulation in the county, and every person interested shall have the right to appear and be heard, or file a remonstrance against such action contemplated by the County Commissioners.

Approved by Governor Cruce, March 22, 1913.

The Rexall Stores

Pope's Condition Still Very Critical.

Rome, April 16.—The bulletins issued by the physicians today indicated that the condition of the pope is practically stationary. The evening bulletin was of a more optimistic tone, as it indicated that the temperature was normal and that there had been no recurrence of the usual night fever.

The fact, however, that the bronchial affection is not responding to treatment, detracts somewhat from the hopeful character of the report, as the occasional paroxysms of coughing are taxing the strength of the patient, who already has been under a great strain.

BEAUTIFUL HAIR AT SMALL COST

A Simple Remedy Beautifies the Hair, Cures Dandruff, Stops Falling Hair.

What a pity it is to see so many people with thin, wispy hair, faded or streaked with gray, and realize that most of these people might have soft, glossy, abundant hair of beautiful color and lustre if they would but use the proper treatment. There is no necessity for gray hair under 65 years of age, and there is no excuse for any one, young or old, having thin, scraggly hair, either full of dandruff or heavy and rank smelling with excessive oil.

You can bring back the natural color of your hair in a few days and forever rid yourself of any dandruff and loose hairs, and make your hair grow strong and beautiful by using Wyeth's Sage and Sulphur Hair Remedy. For generations common garden sage has been used for restoring and preserving the color of the hair; and Sulphur is recognized by Scalp Specialists as being excellent for treatment of hair and scalp troubles.

If you are troubled with dandruff or itching scalp, or if your hair is losing its color or coming out, get a fifty-cent bottle of Wyeth's Sage and Sulphur from your druggist, and notice the improvement in appearance of your hair after a few days' treatment. Agents, Gwin & Mays Drug Co., Ada, Okla.—adv.

Economical Ironing

To iron economically you must not waste heat. Ironing with ordinary flat irons is very wasteful of heat; most of the heat goes up the kitchen chimney; a lot of it is wasted in charring the ironing pad and in scorching the clothes. Ironing with a

Hot Point Electric Flat Iron

is quite different—all the heat is in the iron ready to go into the pieces ironed instead of going into the room or up the kitchen chimney. None of it is wasted.

To use only the amount of heat actually needed for ironing, be it either heavy damp pieces or laces, embroidery or other light goods is real economy.

That's why Hot Point Irons are used in thousands of homes throughout our country. We keep all styles and sizes—Let us send you one on trial.

Breaking It Gently.

"I hev come to tell yez, Mrs. Malone, that yer husband met with an accident." "An' what is it, now?" wailed Mrs. Malone. "He was overcome by the heat, mum." "Overcome by the heat, was he? An' how did it happen?" "He fell into the furnace over at the foundry, mum."—Tit-Bits.

The De Sota offers a splendid variety program this evening. The first picture will be a touching drama "The Heart of the Child" in which the Thanhouser kid and other stars are featured. "Fritz and Oscar" is a rip roaring comedy. "In the Jutlands" is a scenic picture in which the beauties of the region in and around Denmark are shown.

Hot Water a Curative Agent.

The action of hot water on the body is the simplest and most effective curative agent we have. Pain due to neuritis, sciatica, rheumatism or injury are relieved and the first stages of a cold are so greatly relieved that the cold will not progress further. Such a bath is in no way similar to the Turkish bath. A cold bath need not be taken after a hot bath and people living in the temperate zone will be greatly benefited by a really hot bath every other day.

Freezing Not Harmful to Fishes.

Fishes do not need to maintain a uniform or nearly even bodily temperature, and they can be frozen solid and thawed out months afterwards without injury to their health, if the process is not too sudden. Such changes happen to millions of them every year in the rivers of the colder parts of Siberia.

Called Music Nerve Poison.

Frederick Nietzsche agreed with those who found no inspiration in music. Indeed, he regarded music as a nerve poison, and declared that some music—particularly that of Wagner and Tschakowsky—deranged the minds of many who heard it. Tschakowsky killed himself after completing his famous "Sixth Symphony," which, as several other have died by their own hands after playing it, has come to be known as the "suicide Symphony."

"The Doctor's Photograph" is the title of a splendid drama in which a burglar is reformed by being brought face to face with the photo of a doctor who saved the life of his child. He refrains from robbing the house and becomes an honest man once more. How it Happened is a strong story in which circumstantial evidence plays a part.

HOW THE CONCLAVE VOTES FOR A POPE

Paris, April 17.—The next papal conclave at Rome has become a subject of pregnant interest to the entire Catholic world, not only from a spiritual, but also from a political point of view. The following is an outline of the many peculiar and ancient details of the great ceremony by which the new head of the church is selected.

In the first place the occupant of the holy see is subjected, at the trying moment when his soul is about to be required of him, to formalities that are elaborately laid down and which seem very much at variance with the closing scene of a human life. In the presence of the members of the sacred college the sacristan bishop administers the viaticum and extreme unction. The grand penitentiary gives the absolution. The penitential psalms are then intoned. The expiring pontiff, if he have the strength to do so, gives his benediction to the assembly, and the dirge of the mortuary hymn continues to the end. The Camerlingo of the Vatican, in order to make the official record of the death, takes up a small silver hammer, with which he strikes three light blows on the dead man's head, and calls on him by his christian name.

Nine days after the death of the Pope the conclave meets to choose his successor. The gathering takes its name from the fact that the cardinals are locked up in conclave and shut off from all communication with the outer world. The next conclave will be the first to meet in the huge building constructed several years ago in the rear of the Vatican Palace, and which is known as the Palace of the Conclave. The palace has 200 rooms, distributed among 70 apartments, each of which will constitute the accommodations needed for one of the cardinals when all come together to elect a pope.

On the day of the conclave all are summoned from their rooms by a bell thrice rung, and repair to the assembly chamber. From this moment until the result of the voting is announced they have no communication save with the Vatican officials. Their clothing and even their food is searched, lest they should contain correspondence from outside.

After a night of seclusion the conclave is formally assembled early next afternoon, and all repair to the chapel, where a desk has been provided for each cardinal. In the middle of the hall are six tables and behind these an altar. Immediately in front of the altar is a table on which are two chalices for holding the ballots. Before proceeding further, a search is made to assure the conclave

RAMSEY DRUG CO.

of the fact that none but those entitled to vote are present.

Each cardinal writes the name of the candidate he would elect, in the centre of the voting ticket. This is of an oblong form, prepared according to the directions of the bull of Gregory XV. At the foot of the altar the voter lifts up his hand and exhibits the ticket between his thumb and finger. He then kneels and prays for a moment, after which he takes oath that he is about to elect him whom, according to God, he thinks ought to be elected. He then puts the ticket on the paten and slips it from thence into the chalice which he covers up again. Then he makes anew a reverence before the altar and returns to his place.

When all have voted in like manner the six tellers examine the papers and proclaim the result. If no cardinal has obtained the required number of votes—two-thirds of the number of cardinals present—the result is declared void, and the voting papers, collected together, are burned in a brazier with damp straw, the dense smoke from which issues through a particular chimney, visible from outside and proclaims to the outer world that no election has taken place.

Heretofore the burning of the ballots has closed the session of the day and the conclave has adjourned until the evening. Four years ago, however, Pope Pius X. introduced an important change in the method of electing his successor. Instead of having but two ballots each day the new ruling provides for four ballots, two in the morning and two in the evening. Thus the conclaves in future are expected to take just half the time occupied during the last seven centuries.

Proceeding with the election by ballot, voting is continued on the lines indicated until a choice is reached. The result is then announced by the ringing of a bell and all the senior cardinals advance to the place occupied by the newly chosen pontiff and inquire if he accepts the election. On receiving an affirmative answer, he is at once saluted by the entire college. The new Pope then retires to robe himself in the pontifical vestments. On his return the fisherman's ring is placed on his finger, and the new Vicar of Christ gives his first solemn benediction to the members of the sacred college from the steps of the altar.

Notable Conference at Richmond

Richmond, Va. April 16—Every organized agency for promoting rural advance in the South was represented at the formal opening here today of the sixteenth annual meeting of the Conference for Education in the South. The selection of the betterment of rural life as the chief topic for discussion this year has resulted in a larger and more representative attendance than marked any previous meetings of the conference. Governor

Mann, Mayor Ainslie and W. T. Dabney of the Richmond Chamber of Commerce delivered addresses of welcome, to which responses were made by Gen. Julian S. Carr of North Carolina and a number of other prominent men among the visitors.

Card of Thanks.

We want to return our sincere thanks to the many kind friends who so faithfully administered to her wants and consoling her by their presence, our dear companion and daughter during her last illness after our return home and especially to the good ladies and her sisters of the Circle for so nobly performing the last tribute of respect to her memory.

GORE WILL NOT RESIGN

MUCH AMUSED BY REPORTS THAT HE INTENDED RETIRING FROM U. S. SENATE.

Washington, April 17.—Senator Gore laughed heartily when his attention was called to the rumor reaching here from Oklahoma that he contemplated resigning. He said that he never had thought of resigning and never would think of resigning—that resignation was undemocratic and more than ever would it be undemocratic when there was a democratic house, a democratic senate and a democratic president with whom he was on the friendliest terms and in perfect accord. He said that he would render more effective service to the state than ever and has elaborated a large legislative program as chairman of the committee on Agriculture of the senate, for the extension and improvement of scientific agriculture, improved marketing facilities, etc. He says moreover that he enjoys the fun of fighting against Indian grafters. He says also that he is only forty-two now and could not consent to resign till he is eight-four.

"After a survey of the conditions of the Indians of the five civilized tribes in Oklahoma, it is my belief that the salvation of these Indians rests with Congress," says Warren K. Moorehead of the United States Board of Indian Commissioners in a report just made public.

It is believed that the report is the first step in an effort to have frauds alleged to have been practiced against the Indians investigated by congress and to bring about remedial legislation.

"It is evident by court records and testimony of government officials and the statements of the Indians themselves that members of the tribes have lost much land and money through the intrigues of white citizens," Moorehead continues.

In the annual report of the board of Indian commissioners specific allegations in regard to certain citizens and certain Indians were made and these charges will be amplified when Congress takes the question up for investigation.

Discouraged in the main by the apparently hopeless task of prying jobs loose in the government service where there are no jobs to be had the army of office seekers which has been besieging Washington for weeks, is fast disintegrating. The seekers for "pie" are disappearing as if they were a part of a fast vanishing race. The blackmailer and the badger game operators have been here but their activities in Washington are of so common occurrence that they excite little or no interest or curiosity. In fact, every known pressure has been brought to bear upon members of congress and high officials to obtain jobs, but failure has been the general result.

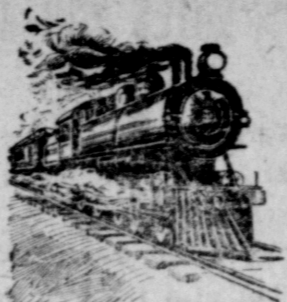

Some confusion exists among the members of the Oklahoma delegation in the house over the question of post-office patronage. Representatives elected at large are inclined to make indorsements within districts represented by democratic congressmen but Postmaster General Burleson has let it be known that the recommendations of the district congressman will receive first hearing at all times. The congressman-at-large will distribute the postoffice patronage in their home counties and will have a say in the republican counties, but it seems their influence will extend no further.

RESIDENCE OF J. W. RAG.

LAND BURNS AT OAKMAN About 1 o'clock Monday afternoon the home of J. W. Ragland at Oakman was burned. The fire is supposed to have originated from the stove. It had made such head way before being discovered that practically nothing could be saved. The loss was total as there was no insurance on the house or furniture.

WOOL TARIFF MEN LOSE THEIR FIGHT

Washington, April 16.—By a vote of 190 to 42 the Democratic caucus today voted down the motion of Representative Martin Dies of Texas to place a duty of 15 per cent on wool. The Texans voted as follows:

For free wool: Messrs. Beall, Eagle, Garner, Marrot, Henry, Hardy, Rayburn, Smith, Summers, Vaughan and Young; total 11.

For a tariff on wool: Messrs. Burgess, Callaway, Dies, Slayden and Stephens; total 5.

Not voting, Gregg; one vacancy. Buchanan, not yet having qualified. Every democrat in the Oklahoma delegation except Representative Murray voted to sustain the Administration program for free wool.

By this vote President Wilson wins the main fight on the tariff schedules. Mr. Wilson has firmly insisted that wool should go on the free list to the end that greater reductions in the tariff may be made on woolen clothing than if the raw material were taxed. It was at the President's request that this was done after the members of the Ways and Means committee, in the log-rolling process, had decided to tax wool in the interests of the congressmen from the sheep-growing sections.

Representative Dies' proposal to take wool from the free list and place upon it a duty of 15 per cent ad valorem received more votes than were cast against putting sugar on the free list at the end of three years. Mr. Dies, the other day, made a speech in favor of Mr. Broussard's motion to put a protection duty on sugar.

"This Is My 52nd Birthday"—Senator Saulsbury.

Willard Saulsbury, the new United States senator from Delaware, was born in Georgetown, Del., April 17, 1861. His early education was received in private schools and later he attended the University of Virginia. Since 1882 he has been one of the leading lawyers in Wilmington. He is also interested in numerous financial and industrial corporations. For many years he has been prominent in Democratic politics, having served as chairman of the state committee and as the Delaware representative on the national committee. Prior to his recent election he had been the nominee of his party for United States senator on six different occasions. Mr. Saulsbury was not wholly unacquainted with the United States senate, since his father and also an uncle were members of that body.

\$40 PER ACRE PROFIT ON COTTON

DETAILED REPORT OF P. A. NORRIS ON 18 ACRE FIELD NEAR ADA.

Ada, Oklahoma, March 22, 1913. Mr. A. L. Kennedy, Ada, Oklahoma,

Dear Sir: I beg to submit you herewith report of my 18 acres of cotton, 12 acres of the land was broken in January, with a disc sulky to a depth of 10 or 11 inches. 6 acres were broken in April with turning plows at a depth of 4 or 5 inches. The six acres had been used as a feed lot for cattle and while highly fertilized, was in poor condition for cultivation, and I did not succeed in getting a good stand on it. Cotton was planted in rows four and one-half feet apart, May 3d to May 6th; was hoed twice and plowed with a cultivator 12 times. The yield was thirteen bales of picked cotton weighing 6,570 pounds, which sold for \$738.01 and in addition four bales of bolls were gathered, which sold for \$190. Cotton was sold as fast as ginned. Seed out of the thirteen bales of picked cotton were saved and have practically all been sold at \$1.00 per bushel, amounting to \$365.

Statement of the crop follows:

DEBITS	
Rent on 18 acres of land at \$5.00 per acre	\$ 90.00
10 bushels of Mebane Triumph seed at \$2.25 per bushel	22.50
Breaking 12 acres with disc sulky and 6 acres of land with turning plows	36.00
Harrowing 18 acres with section harrow	6.00
Planting 18 acres	9.00
Three days with cultivator, May 22, 23, and 24	9.00
Three days with cultivator, May 29, 30 and 31	9.00
Three days with cultivator, June 6, 7 and 8	9.00
Chopped on June 13 and 14	18.00
Three days with cultivator, June 13, 14 and 15	9.00
Three days with cultivator, June 20, 21 and 22	9.00
Three days with cultivator, July 1, 2 and 3	9.00
Hoed on July 16, 17 and 18	9.00
Three days with cultivator, July 29, 30 and 31	9.00
Three days with cultivator, August 5, 6 and 7	9.00
Two days with cultivator, August 13 and 14	6.00
Three days with cultivator, August 19, 20 and 21	9.00
Three days with cultivator, August 27, 28 and 29	9.00
Two days with cultivator, September 6 and 7	6.00
Cost of picking 17,225 pounds of seed cotton at 85c per 100 pounds	155.16
Cost of gathering 4 bales of bolls	55.00
Hauling to gin 13 bales of seed cotton	13.00
Hauling to gin 11,000 pounds gathered cotton	7.00
Ginning and wrapping 13 bales of cotton	45.90
(The seed out of the gathered cotton was given for ginning the 4 bales of bolls.)	
Total Debits	\$568.56

CREDITS	
13 bales of picked cotton	\$ 738.01
4 bales of gathered cotton	190.00
365 bushels of seed	365.00
Total Credits	\$1,293.01
Total Debits	\$568.56
Net Profit	724.45
Total	\$1,293.01

Yours Very Truly, P. A. NORRIS.

Why Stand for Such Agony?

It is Entirely Unnecessary that Anyone Suffer with Boils, Carbuncles, Abscesses and Other Eruptive Sores.

Every spring a host of people are the picture of woe; they suffer the intense agony of carbuncles, boils, erysipelas and other extremely painful and often dangerous abscesses. All they require is to

Get Your Blood Purified With S. S. S. and You Won't be Tortured Like This. Get the stagnation out of their blood with S. S. S. This wonderful remedy works on the principle of stimulating cell growth, of

enabling the blood to quickly infuse new life into the tissues, to stop decay, to prevent the formation of those accumulations of broken down cells that rapidly multiply into the form of carbuncles and other eruptions.

Science cannot explain just why certain elements in the blood feed the bones, others nourish the hair roots, and so on. And it is this same mysterious action of S. S. S. that attacks all diseased spots, drives away all germs, heals all sores and supplants the activity of disease germs with the powerful healing action of leucocytes. Remarkable testimonials have been written that prove beyond question there is no blood disease but what can be cured by S. S. S. And in all those cases that were treated with mercury, iodides, arsenic, copper and other minerals with no permanent effect, the most astonishing recoveries have been made by S. S. S.

There is not a blood taint of any nature that can remain in a system fortified by this most wonderful remedy, for it is absolutely pure and contains only those elements that the blood naturally assimilates, and which the tissues gratefully accept. It agrees with the most delicate stomach, even in those cases where the use of strong drugs has so weakened the digestive system that medicine cannot be given. Get a \$1.00 bottle of S. S. S. at any drug store and thus be assured of a complete cure of any eruptive blood disease. If your case is peculiar and you desire special advice write to The Swift Specific Co., Medical Dept., 127 Swift Bldg., Atlanta, Ga.

REBELS MAY ATTACK CITY OF MEXICO

New Orleans, La., April 16.—Military and political leaders from all parts of the Mexican Republic are arriving in New Orleans daily, most of them en route to Coahuila to join Gov. Venustiano Carranza, who has been proclaimed provisional president by the various revolutionary factions now in arms against the Huerta government.

Col. Silvino M. Garcia, commandant of the Rurales forces of the State of Zacatecas, who arrived today, declared that Carranza would be seated as president of the Republic by June 15.

"On to the City of Mexico!" is the cry of an army of 25,000 men which is now being organized to march against the capital, he said. "Gen. Huerta can not possibly muster one-fourth that number of loyal troops, which is proven by the fact that thousands of soldiers dispatched from the City of Mexico against the Constitutionalists of the North have declined to fight, and many of them have deserted and joined the ranks of the revolutionists."

Col. Garcia declared that Carranza within a month would be able to mobilize an army of 70,000 men, two-thirds of whom would remain on garrison duty throughout the Republic, while 25,000 picked men engaged in the campaign would march against the capital.

He said Mexicans are aroused as never before as a result of recent barbarities and the effort to establish a military government "more brutal than was ever dreamed of by any of Huerta's predecessors." The federal troops burned all the buildings, he said, are raiding and burning

ing ranches and even murdering pacific residents. At Sierra de Matehualpil, in the state of Zacatecas, he said federal troops burned all the buildings on several ranches because the Rurales, who revolted, were permitted to quench their thirst at these places.

Col. Garcia said the State of Zacatecas is controlled by the revolutionists under the leadership of Col. Euillio Guierrez.

Serapio Aguirre, a member of the Mexican National Congress from the central district of Coahuila, arrived here today en route to Monclova, Coahuila, to join Gov. Carranza. He declared that the Constitutionalists had given their ultimatum to the Huerta government, which was:

"1. The immediate resignation of Huerta and his Cabinet.
2. The departure from the Republic forthwith of Gen. Huerta, Gen. Felix Diaz, Gen. Mondragon and Gen. Blanquet."

"This revolution will continue," he declared, "until the last evidence of this effort to re-establish military government in Mexico has been wiped out and civil government and political justice have again been enthroned."

He denied emphatically that any branch of the revolutionists is in favor of secession, but were fighting for the restoration of the government to the people.

Collins Dies of Injuries.

Wilburton, Ok., April 16.—M. L. Collins, who was injured in a hotel here one week ago, died this morning. The remains were shipped tonight to the home of his parents in Forney, Tex., accompanied by his brothers, J. and M. Collins of Forney.

Don't worry over lost articles—the News "Want Column" will find them.

B. M. HAILE, Traffic Mgr. CHICKASHA, OKLA.

BUY YOUR C-O-A-L FROM US

AND GET THE VERY BEST MINED IN THE STATE. Our COAL lasts longer because it's best. We load our wagons with Forks, which makes it best, as it's free of slack.

Ada Ice and Cold Storage Co.

Call us up or See us before you buy.
